`<table>` - पूरी table का container (jaise पूरी marksheet का frame)

`<tr>` = Table Row - ek horizontal row

`<td>` = Table Data - ek individual cell (box) row ke andar

3	4

head → `<th>` `</th>`

body → `<td>` `</td>`

`<thead>` = Table Head - header rows ko group karta hai

`<tbody>` = Table Body - actual data rows ko group karta hai

`<th>` = Table Header - column ya row ka title/label

attributes

colspan - merging across columns

colspan ek cell ko horizontally (left-right) multiple columns jitna bada banata hai
